

Thornton Township High School District 205 Social Worker's Resource Page

COVID -19 Delta Variant

Common coronaviruses typically cause mild to moderate upper-respiratory tract illness, and those affected exhibit cold-like symptoms.

The most common symptoms include:

- Headache
- Cough
- Fever
- Sore Throat
- Runny Nose

Some cases of coronavirus can be more severe, and individuals experience more serious lower-respiratory tract illnesses like bronchitis and pneumonia. For the elderly, infants and those with weakened immune systems, coronavirus can be even more dangerous.

If you have any of these symptoms and need to get tested, below is a list of testing sites:

Testing and Vaccination Sites
