"Home of the Wildcats"

Dear Wildcat Parents and Guardians,

I greet you with great hopes of your support in a **Call to Action** that will ensure we continue to provide the best educational opportunities for the students of Thornton Township High School. Immediately upon dismissal of our staff and students for the 2017 – 2018 school year, our entire campus will shut down due to major construction, which includes the replacement of water pipes, including the main water line. The major construction project includes brand new, updated ADA compliant bathrooms throughout the main building! Our students and staff deserve the best, so our board of education is working to provide them with the best! However, this project comes with great sacrifice, as it significantly modifies our summer programs and processes that prepare us for the following school year. As such, we will not be able to conduct registration in a timely manner as in the past in order to ensure a great start of the school year for our students. **Therefore, the administration is pushing hard to conduct as much of the residency and registration process as possible prior to the end of this school year, hence the call to action.** We need your support in conducting the residency/registration process **NOW** so that we can ensure an efficient start to our 18-19 school year.

Parents and Guardians, please take some time to visit the school and ask to speak with any administrator to review our data, as well as the great things going on in Wildcat Country. You will find that we have **"The Best School"** in the South Suburbs! I need your help in maintaining our status as the Best School, by conducting the residency/registration process early. So, let's hit the ground running and run hard before the end of this school year, parents and guardians! These processes will take place on weeknights and on Saturdays (more information is enclosed); but if you're not able to make it, please know that your child/student can conduct the residency/registration processes with the proper documentation, which is also enclosed.

My vision is for us to start the 2018 – 2019 school year with a newly renovated building for our students and staff, and **ALL** of our students in classrooms with the Best Teachers!

Serving with Gratitude,

Tony L. Ratliff Sr.
Proud Principal of **TTHS**

Mr. Tony Ratliff
Principal
